NuPIC Introduction

OSCON video on YouTube

The video player displays a presentation slide for the NuPIC platform. The slide has a dark blue background with a subtle image of a galaxy. On the left side of the slide, there is a red vertical banner with the O'Reilly OSCON logo and a small inset photo of the speakers on stage. The main text on the slide reads 'Numenta Platform for Intelligent Computing (NuPIC)' with the website 'numenta.org' below it. To the right, there is a diagram of a hierarchical neural network structure with yellow nodes and blue connections. Below the diagram, the names and roles of the speakers, Matt Taylor and Scott Purdy, are listed along with their contact information.
